Missouri Doings

SCHNETTLER CASE MUST BE RETRIED

Supreme Court Holds That Information Was Defective.

Jefferson City, Mo.: The Supreme Court, Division No. 2, Wednesday reversed and remanded the bribery case against John H. Schnettler, formerly member of the St. Louis House of Delegates, who was convicted of bribery in connection with the Suburban franchise bill and was sentenced to four years' imprisonment.

The opinion, which was written by Judge Burgess, follows the reasoning of the court and the decision in the Bonner case, and reverses the Schnettler case on the grounds that the information filed by Circuit Attorney Folk was defective because it was not verified by affidavit of Mr. Folk, by any witness competent to testify or by any private person and filed with the Clerk of the court.

Schnettler was proceeded against with fifteen other members of the House of Delegates, charged with receiving bribes in the Suburban franchise deal, in which the sum of \$75,000 is alleged to have figured in the negotiations between Philip Stock, agent for the Suburban, and J. G. Murrell.

When the case came up for trial the attorneys for the defense filed a demurrer to the information, alleging that it was not verified by oath of the Circuit Attorney. This demurrer was overruled by the Court, and the defense filed exceptions to the ruling.

The Supreme Court now holds that the demurrer should have been sustained and leave asked of the lower court to verify the information before being sent to this court. The court does not go into the case further. On this point alone the case is reversed and remanded for another trial.

NECESSITY FOR IMPROVING KAW RIVER IS VERY GREAT

War Department Makes Report Regarding Proposed Appropriation.

Washington: The Senate Committee on Commerce considered the request by Kansas City for \$1,500,000, with which to improve the mouth of the Kaw, at its meeting Thursday morning. Senator Stone argued in behalf of the appropriation. No action was taken.

A report from the War Department was submitted in response to a request for information. In a note accompanying the report, Secretary Taft said:

"The question of jurisdiction here presented is one of difficulty. The facts show that the harbor lights were fixed by the United States Government in the past, including a part of the Kaw River at its mouth. The necessity for the undertaking of the work proposed is very great and the difficulty of its being done by joint action of municipal or State authorities will impress itself on any one familiar with the circumstances. How far this difficulty, and the present emergency ought to lead Congress in making an appropriation of the character proposed is submitted to that body."

Despite the "emergency" it is not thought the committee will act favorably because economy is now the watchword.

WANTS CORBY MILLIONS DEVOTED TO CHARITY

Attorney General Crow Files Suit at St. Joseph to Enforce Will.

St. Joseph, Mo.: Property valued at more than a half million dollars is affected by a suit filed by Attorney General Crow in the circuit court Saturday, the purpose of which is to enforce the provisions of the last will of John Corby, a pioneer who was engaged in extensive commercial enterprises in St. Joseph, and who died here about twenty-five years ago.

It is a remarkable fact that in a will bequeathing property of great value for religious and charitable purposes there should have been no specific bequests. The will in a general way directed that the remainder of his estate at the death of his widow be devoted to those purposes. The heirs have control of the estate. The attorney general wants the money given to charity.

Rich Hill Wins School Debate.

Rich Hill, Mo.: Rich Hill won the inter-high school literary and debating contest last week from Webb City, heretofore the acknowledged holder of the championship in southwest Missouri. Rich Hill was represented by Patrick Doyle and Miss Lucy Mattingly, and Webb City by Edward Stevens and Miss Neva Britton. Superintendent Richardson of Butler was chairman of contest.

Creeks Raging at Warrensburg.

Warrensburg, Mo.: A severe wind and rain storm visited this section on Thursday afternoon. Rain fell in torrents for one hour, and the wind blew a gale. The creeks north and west of town are out of their banks.

Mrs. Fannie Harrison.

Marshall, Mo.: Mrs. Fannie Harrison, aged 81 years, died of pneumonia at her home here Thursday. She was the mother of Dr. William Harrison of this city and Dr. Job Harrison of Kansas City.

HELD FOR DEATH OF HER HUSBAND

Mrs. Harry Miller and Dr. Warren Smith Placed Under Bonds.

St. Joseph, Mo.: Doctor Warren Smith, after being formally charged Friday morning by the Coroner's jury with having caused the death of Harry Miller, waived a preliminary hearing, and gave bond for \$10,000 to insure his appearance, should the Grand Jury find a true bill against him.

The Coroner's jury also held Mrs. Harry Miller as an accessory to the poisoning of her husband. She appeared in the Justice Court and was released upon bond of \$5,000.

That morphine poisoning was the cause of Miller's death the jury is sure. The Coroner stated that the chemist, who made an examination of the stomach, found distinct signs of the drug.

As soon as the verdict was made known Justice Harrison issued a warrant for the arrest of Mrs. Miller. A few minutes afterwards she appeared in the crowded courtroom, seemingly but little affected by her arrest. Her bond was soon prepared and signed.

The preliminary examination of Doctor Smith was to have begun immediately after the Coroner's verdict was announced. His attorneys made overtures to the counsel for the State that he be released on bond which were accepted. The Justice fixed the amount of the bond at \$10,000, and the document was signed by responsible and wealthy persons.

TORNADO IN PETUS COUNTY.

Residences Destroyed and Farm Buildings Blown Down.

Sedalia, Mo.: A tornado swept through the southern part of Pettis County Thursday afternoon, destroying many farm buildings.

The path of the storm was less than 100 yards in width. It came from the west and traveled eastward.

Near Valda, on the Sedalia, Warsaw and Southwestern Railway, the force of the storm was terrific. A swath was cut in timber lands, large trees being uprooted and whirled around.

The farm buildings of Judge William Higdon, near Valda, were destroyed, and Mrs. Willis Franklin's residence in the same neighborhood was partially destroyed. A barn belonging to Chris Lange was carried off bodily, not a board being left behind.

No fatalities have been reported.

HOLDEN OFFICER KILLS PRISONER

J. B. Riley, After Inquest Is Exonerated of Blame by Coroner.

Holden, Mo.: Night Watchman J. R. Riley was Thursday exonerated from blame in the killing of Charles Darst, whom he shot to death in the calaboose here.

Darst was taken to the prison early in the evening by the night watchman for obstreperous conduct. About 11 o'clock Riley arrested two other men, and with his deputies, Craig and Clary, took them to the calaboose.

As the officers entered the prison, Darst attacked them, cutting a gash in the arm of Clary. The night watchman drew his revolver, fired a shot, and Riley dropped dead.

MILLER'S BODY IS FOUND

Chillicothe Man Evidently Met With Foul Play in Oklahoma.

Chillicothe, Mo.: Relatives of John G. Miller, a piano dealer, who disappeared from his home in this city early last January, heard last week that his body had been found in Kingfisher Creek, near Pond Creek, Okla.

The discovery of Miller's body was made February 28, and it was evident that it had been in the water about a week. Bruises about his head and face caused the Coroner's jury to render a verdict of death by violence at the hands of unknown persons.

Moynihan Cases Dropped.

St. Louis: Assistant Circuit Attorney Maroney Wednesday afternoon entered nolle prosequi in the four cases against John J. Moynihan and two against John Wilson, charged with establishing policy. Mr. Maroney told Judge McDonald that the evidence in the possession of the State was not sufficient on which to secure convictions.

Suicide Near Palmyra.

Palmyra, Mo.: William B. Sams, living west of this city, committed suicide some time Wednesday night by shooting himself in the head with a rifle. His niece found his body Thursday morning.

Damage at Marshall.

Marshall, Mo.: A terrific wind, rain and hail storm struck this place at 3:30 o'clock Thursday afternoon. Considerable damage was done to telephone lines, fences, fruit trees and signs. It lasted half an hour. Many persons were greatly frightened.

Death of Mrs. Anderson.

St. Louis: Mrs. Lucilla Anderson, wife of J. M. Anderson, one of St. Louis' oldest wholesale grocers, died at the family residence, No. 4160 Washington avenue, last week after a brief illness.

"BUFFALO BILL" AND WIFE WHOM HE WOULD DIVORCE

MRS. WILLIAM F. CODY

CORTLEYOU A SILENT MAN.

Secretary Speaks Little, But Always to the Point.

Secretary Cortleyou of the commerce and labor department is liable to sit through a cabinet meeting without saying a word. Again he may utter a sentence of about two lines, but it is certain to have meat in every word, for Mr. Cortleyou makes up in pith what he lacks in volubility. One day recently he broke his record by uttering four consecutive sentences while discussing reciprocity with Canada. President Roosevelt expressed amazement at the secretary's loquacity and hinted that to indulge in alcoholic drinks so early in the day was ill advised. The other cabinet members laughed, but Mr. Cortleyou never cracked a smile.

DUKE OF CAMBRIDGE DEAD.

Cousin of Queen Victoria Succumbs to Weight of Years.

His royal highness the Duke of Cambridge, cousin of Queen Victoria, chief ranger of the royal forests and former commander-in-chief of the British army, died at London March 17 of old age. His royal highness was born March 26, 1819, and had been prominent connected with all court and official functions for more than half a century.

Officially he was never married, although he contracted a morganatic alliance with a burlesque actress and dancer named Farebrother, who afterward was known as Mrs. Fitzgeorge. She was well known in 1840 or thereabouts and made a great sensation while playing in burlesque at the Lyceum theater. She died in 1890. The Duke and Mrs. Fitzgeorge had two children, now Admiral and Colonel Fitzgeorge, respectively.

His title died with him, as his sons,

DUKE OF CAMBRIDGE

being born of a morganatic marriage, are not eligible to succeed. His death also places at the disposal of the King of a field marshal's baton and an Order of the Garter.

Origin of "Painting Things Red."

Senator McLaurin of Mississippi furnishes the latest origin of the term "painting things red." He says it originated in his state half a century ago, when steamboat racing on the Mississippi was an every-day event. At the start of the race the captain would shout to the firemen: "Paint things red, boys." Whereupon the men would heap on coal and wood until the furnaces glowed so that the crimson glare could be seen for miles at night. In that way the term "painting things red" came to mean a lively time either on water or land.

Two Popular Diplomats.

Baron Stenberg, the German ambassador, and Sir Mortimer Durand, the British representative, are regarded as the best after-dinner talkers among the foreign diplomats in Washington. The latter has established himself as a prime favorite with society in the capital. It is therefore hoped that there is nothing in a report that he is booked for transfer to St. Petersburg. The baron is thoroughly American in his habit of mind, and his nimble wit has helped him over several rough places.

EIGHT YEARS OF TORTURE.

No suffering more keen than kidney suffering. Sick kidneys make bad blood; cause weak, stiff and aching backs; cause blind, sick and dizzy headaches; lack of appetite and loss of sleep; keep you all tired out and spoil digestion.

To have perfect health, you must cure the kidneys. Read how one man was cured by Doan's

Kidney Pills after eight years of torture.

Henry Soule of Pultney St., Hammondsport, N. Y., says: "For eight years I suffered constant agony from kidney complaint. I endured the worst torture from gravel and the kidney secretions were excessive and contained sediment like brick dust. I had to get out of bed from ten to twenty times a night and the loss of sleep wore me out. Indigestion came on and the distress after eating was terrible. Doan's Kidney Pills effected a complete and lasting cure, and after the symptoms of kidney trouble were gone my stomach began to work as it should. This lasting cure, especially in a person of my age, proves the great value of Doan's Kidney Pills more convincingly than could any words of mine."

Doan's Kidney Pills sold by all druggists; price 50 cents per box, or mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y. Write for free trial.

Earns Gratitude of Women.

Representative George H. Fall, who introduced and championed the bill which recently passed the Massachusetts legislature making mothers equal guardians of children with fathers, says that most of the credit for its passage is due his wife, who, after her marriage, took up the study of law. She is a member of the Maiden school board and the mother of five children.

Electricity in Agriculture.

An effort is being made in Sweden to use electricity in agriculture. A seed field is covered by a network of wire and a strong electric current is turned on during nights and chilly days, but cut off during sunny and warm weather. The system was invented by Prof. Lemstrom of Helsingfors, Finland.

Has Found Cancer Microbe.

Prof. Gossburg of the University of Berlin is the latest bacteriologist to report the discovery of the cancer microbe. He has been experimenting along this line for several years and is considered an authority upon the subject.

Effect of Fire on Diamonds.

None can tell where the diamond goes to in combustion. Burn it, and it leaves no ash; the flame is exterior, like that of a cork, and when it has blazed itself out there remains not even so much as would dust the antennae of a butterfly.

New Orders for Women.

King Edward VII. is to establish a new order, it is said, which will confer honor on distinguished women. Since the Baroness Burdett Coutts received her title, no woman has been elevated to the peerage because of her philanthropic benefactions.

Last Irish Toll Bridge.

Waterford possesses the only toll bridge in Ireland. After 103 years' agitation a movement is now on foot for the construction of a free bridge over the River Suir.

DOCTOR DID IT.

Put on 36 Pounds by Food.

Feed a physician back to health and he gains an experience that he can use to benefit others. For this reason Grape-Nuts food is daily recommended to patients by hundreds of physicians who have cured themselves of stomach trouble. One doctor says:

"Although a physician and trying to aid and assist my fellow beings to enjoy good health it must be admitted I formerly did not enjoy the best of health myself. In January, 1899, I only weighed 119 pounds. At this time I was living in the Ohio Valley and began to think I had about seen my best days. One day about 3 years ago I had an opportunity to try Grape-Nuts food for my breakfast. I liked it so well that I ate three teaspoonsful three times a day and have regularly used it up to the present time, and I now weigh 155, a gain of 36 pounds and enjoy the best of health."

"Not only has Grape-Nuts made this wonderful change in me, but through it I have helped my friends, relatives and patients. The sustaining power of this food is simply wonderful."

"I have one patient who is a section hand on the C. & O. R. R., who eats nothing in the morning but four tablespoonsful of Grape-Nuts and yet does his very hard work up to lunch time and enjoys the best of health and strength."

"I could name a great many cases like this and I still prescribe Grape-Nuts in my practice every day." Name given by Postum Co., Battle Creek, Mich.

Ask any physician about the scientific principles on which Grape-Nuts food is made. He'll tell you the principles are perfect.

Then a 10 days' trial proves that the principles are carried out in the food ("all the good of the grains so treated that anyone can digest it all"). Shown in renewed physical strength and brain energy.

"There's a reason." Look in each pkg. for the famous little book, "The Road to Wellville."
